Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Forbes (US 5,261,554). Regarding claims 1-10, see Figs. 1 and 2 where the claimed structure is shown. The tab is 24 and the slot is in 13 which receives the tab 24. 20 is the carrying member. Regarding claims 10 and 13, the container is capable of transporting plants and 20 is the handle. Regarding claim 14 and 15 see the discussion of claim 1 and 10 above. Regarding claim 16-20, the second tab is the end of the strap 20 which is labeled as item 21 and goes through the second slit. The handle 20 is capable of being removed from slit 8.

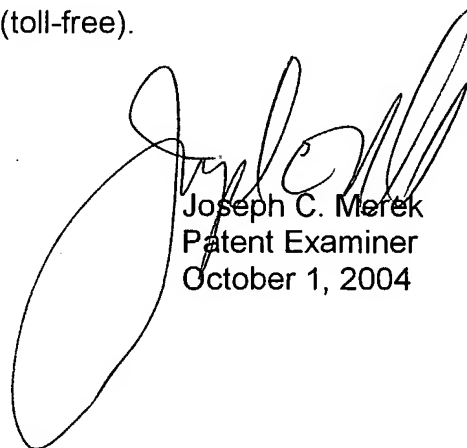

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Todia et al is cited for teaching a container with a carrying strap. LeMire is cited for teaching a package handle. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph C.
